

WEHLING CONSTRUCTION INC.

**1080 21 ½ Road
Grand Junction, CO 81505**

Larry Wehling

Office : (970) 858-8557

Cell: (970) 250-6900

Fax: (970) 858-8263

Our company does a variety of pipeline services including, not limited to: New pipeline installation, (we have laid pipeline anywhere from 2" to 24"), Large and small Compressor and Plant installation, Building well locations, Change Outs, Pipeline testing, Meter sets, we lay PE & HDPE of all sizes, and several other small and large projects. We have also done numerous anomaly work.

Our team of experienced pipeline personnel make us very competitive with strong leadership and skills.

We are OQ qualified and registered with ISNetworld. Our company has mandatory pre-employment and random drug testing under Pipeline Testing Consortium, Inc.

We have strict company safety policies and procedures and have documented training for our employees which is overseen by our Safety/Transportation Specialist, Michael Stookey.

Our company is based out of Colorado, with the ability to work in Wyoming, Kansas, Utah, New Mexico, North & South Dakota.

We would appreciate the opportunity to bid any upcoming projects and obtain a MSA with your company.

If you need any more information, feel free to contact me.

Thank you,

Larry Wehling
